

Xstream Mobile Solutions, Inc (XSM) has developed the ultimate tool to help organizations deliver and manage text messages from an internet connected PC direct to their cell phone. Xstream Biz Gold © allows for recipients (contacts) from a large organization to home users the ability to combine the use of web technologies and the cell phone to communicate. Xstream Biz Gold © can reach a large population of cell phones, email addresses, and other wireless devices simultaneously with managed text messages delivering information from one to many. Even when cell signals are limited, text messages can reach the recipient within seconds.
